## APPRECIATION

---

I would never have been able to write this book had it not been for many special people who inspired me along the way. I am grateful to Allah for my lovely wife Sarah who continued to push me forward as I wrote the original manuscript. Had it not been for her encouragement and support, I am sure this book would not be here today. It would be a great injustice if I did not extend my gratitude to Dr. Nameera Akhtar who spent countless hours reviewing my research and challenging my ideas. I am deeply indebted to my primary research assistant Sister Rawa Awad for her meticulous research. It would be an understatement to say that her research forms the backbone of the emotional intelligence intersection with prophetic narrations. I would also like to thank Qalam Institute for supporting this project and providing me the opportunity to put this book together and lastly, a special thanks to my editors, Hashem Meriesh, Sally Elhousieny, and Asiya Ahmad. Thank you for your time, insight, and guidance.
